Corrigenda

Volume 150, October 1949

Page 50. S. S. Spicer and Helen Reynolds, "Individual and Age Variations in Methemoglobin Formation and Reduction in Rabbit Erythrocytes." In the first column of table 3, the fourth item, which now reads "8 weeks," should read "2 weeks."

Volume 161, June 1950

Page 506. P. Boquet, M. Dworetzky and H. E. Essex, "Physiologic Responses of Certain Animals and Isolated Preparations to Mixtures of Snake Venom and Egg Yolk." The last 2 sentences of the legend for figure 5 belong at the end of the legend for figure 4. These sentences read as follows: "Material in 2 syringes was injected simultaneously. Note return to base line in 2 minutes and stepwise return to normal contractility in 4 to 5 minutes."

Page 571. The third sentence under SUMMARY AND CONCLUSIONS should read, "The D-L substance is heat stable."

Volume 165, April 1951

Page 89. J. A. Johnson, H. M. Cavert, N. Lifson and M. B. Visscher, "Permeability of the Bladder to Water Studied by Means of Isotopes." The sentence which begins under table 1 should read: "Upon integration the above equation yields, \( \ln \left( \frac{S}{S_0} \right) = -kt \), where \( S_0 \) is the isotope concentration at \( t = 0 \), and \( k \) can be obtained from plotting \( \log \left( \frac{S}{S_0} \right) \) against time."

Volume 165, May 1951

Page 418. C. B. Mueller, A. Surtshin, M. R. Carlin and H. L. White, "Glomerular and Tubular Influences on Sodium and Water Excretion." In footnote 4 "table 2" should read "table 1B."
