CORRIGENDA

Volume 198, March 1960
Page 593: F. BERGLUND, C.-G. HELANDER AND R. B. HOWE, "Inorganic sulfate and thiosulfate: transport and competition in renal tubules of the dog." Equation 5 should read:
\[
\frac{\text{SO}_4\text{-reabsorption}}{235} = \frac{\text{SO}_4}{\left[\text{SO}_4\right] + 1.56 \cdot \left[\text{S}_2\text{O}_3\right]} - \frac{\text{S}_2\text{O}_3}{235}
\]
Equation 6 should read:
\[
\frac{\text{S}_2\text{O}_3\text{-reabsorption}}{95.8} = \frac{\text{S}_2\text{O}_3}{\left[\text{S}_2\text{O}_3\right] + 0.64 \cdot \left[\text{SO}_4\right]} + \frac{9}{95.8}
\]

Volume 198, March 1960
Page 634: E. J. MASORO AND EDITH PORTER, "Fatty acid oxidation by mitochondria from cold-fasted rats." Footnote to table 1 should read: Values are means ± standard deviation of the mean.

Volume 199, July 1960
Page 93: ROY C. THOMPSON AND RAY F. PALMER, "Strontium-calcium interrelationships in the mature rat." In table 1, the third and fourth lines under the heading Single Dose Retention are transposed. The numbers 766†, +9, 54† go with the 2% calcium diet and the numbers 731, −3, 49 go with the 0.5% calcium diet.

Volume 199, July 1960
Page 202: JUDITH PATKIN AND E. J. MASORO, "Effects of cold stress on mitochondrial oxidative phosphorylation." Footnote to tables 1 and 2 should read: Values are means ± standard deviation of the mean.
