

Leukocyte labeling with inorganic radiophosphorus. <i>Walker, R. I., J. C. Herion, and J. G. Palmer</i>	1137	sor response. <i>Sagawa, K., A. E. Taylor, and A. C. Guyton</i>	1164
Acceleration of thrombin activity with Ac-globulin. <i>Seegers, W. H., and R. H. Landaburu</i>	1142	Neurogenic factors and angiotensin in etiology of hypertension. <i>Taquini, A. C., Jr., P. C. Blaquier and D. F. Bohr</i>	1173
Exchange of inulin and dextran between blood and cerebrospinal fluid. <i>Rothman, A. R., E. J. Freireich, J. R. Gaskins, C. S. Patlak, and D. P. Rall</i>	1145	Hypothalamic neurohormonal agents and sexual maturation of immature female rats. <i>Corbin, A., and B. A. Schottelius</i>	1176
Cerebrospinal fluid iodide. <i>Becker, B.</i>	1149	Unipolar and bipolar electrodes in self-stimulation experiments. <i>Valenstein, E. S., and B. Beer</i>	1181
Thoracic duct lymph of mice after saline treatment of tourniquet shock. <i>Shrewsbury, M. M.</i>	1152	Excitation of medullary neurons by chemical agents. <i>Kim, J. K., and F. G. Carpenter</i>	1187
Anti-inflammatory properties of lyophilized inflammatory exudates. <i>DiPasquale, G., and R. J. Givord</i>	1155	Cerebral O ₂ in exposures to O ₂ at atmospheric and higher pressure, and influence of CO ₂ . <i>Bean, J. W.</i>	1192
Time-concentration curves and dilution spaces of T-1824 and I ¹³¹ -labeled proteins in dogs. <i>Baker, C. H., and H. D. Wycoff</i>	1159	Innervation and reinnervation of cricothyroid muscle in the rabbit. <i>Van Harreveld, A., and S. Tachibana</i>	1199
Dynamic performance and stability of cerebral ischemic pres-			

CORRIGENDUM

Volume 200, May 1961

Page 959: Miriam Lending, Lawrence B. Slobody, and Joan Mestern, "Effect of hyperoxia, hypercapnia, and hypoxia on blood-cerebrospinal fluid barrier." *Line 3* from bottom of abstract should read: Hyperoxia alone did not cause significant changes.
