CONTENTS OF VOLUME 203

Stop-flow analysis of creatinine excretion in the dog. Swan-son, R. E., and A. A. Hakim .......................... 980
Renal tubular secretion of creatinine in the dog. O'Connell, J. M. D., J. A. Roman, and G. H. Mudge ............... 985
Localization of blood pressure regulating and crythrocytic functions in rat kidney. Sokabe, H., and A. Grollman .......... 991
Renal function in water snakes. LeBrie, S. J., and I. D. W. Sutherland ............................................. 995
Effects of DOCA, K loading, and cations on K uptake by rabbit kidney cortex. Bertani, W. O., and D. A. LeShir .......... 1001
Cadmium enhancement of proximal tubular sodium reab- sorption. Vander, A. J. ............................................ 1005
Carbohydrate metabolism and electrolyte content of rabbit diaphragm in vitro: effect of Na pyruvate. Young, H. L., and I. S. Edelman .............................................. 1008
Pancreactectomy in rats: onset of metabolic changes in liver, adipose, and diaphragm. Migliorini, R. H., and I. L. ChaiSoff .................................................. 1019
Factors affecting liver uptake of serum free stearic acid-14C. Trout, D. I., and F. H. Estes, Jr. ......................... 1024
Relation between dietary cholesterol and bile acid excretion in the rat. Wilson, J. D. ........................................ 1029
Epicrine release and liver glycogen levels after carbon tetrachloride administration. Rubinstein, D. ........................ 1033
Effects of insulin and allorn in diabetes on glucose metabolism in rabbit aortic tissue Mulcohy, P. D., and A. I. Wine- grad ......................................................... 1038
Some physical, metabolic, and sensory components in the appetite for glucose. Jacobs, H. L. ............................. 1043
Fatty acid metabolism during norepinephrine-induced thermo genesis in the cold-acclimatized rat Hannan, J. P., and A. M. Larson .................................................. 1055
Tissue tolerance to hyperthermic blood perfusion of dog hind limb. Reed, W. A., and L. Hopkins ..................... 1062
Transfer of carbon from formate to amino acids of milk protein in the intact cow. Black, A. L., M. Kleiber, J. R. Luick, and J. J. Kaneko .................................................. 1067
Passage of heterologous serum proteins from mother into fetal compartments in the rabbit. Kalangara, A. C., and A. M. Schechtman .......................................... 1071
Interactions of dietary sodium and potassium and their influence on energy metabolism. Smith, J. D., and J. H. Meyer .................................................. 1081
A technique of studying salivary gland function. Henriques, D. L. .................................................. 1086
Acid secretion, potential difference, and resistance of esophago-branch stomach. Rehm, W. S. ................................. 1091

Determination in vivo of regional circulatory dynamics in intact intestine. Racker, M. R., and M. Polisky 1094
Role of manganese and vitamin F deficiency in mouse paralysis. Lee, Y. C. P., K. T. Kaha, M. D. Visscher, and J. T. King 1095
Luteinizing hormone release by cerebral cortex stimulation in rats. Taelesnak, S., L. Caligaris, and J. De Olmos 1099
Motoneuron resting potentials in spinal shock. Barber, C. D., R. J. Josty, and B. A. Schuettius 1113
Amygdalausexy: effects in cats and a survey of its present status. Summers, T. B., and W. W. Kailber 1117
Mechanism of cardiac arrhythmias induced by dienecephalic stimulation. Manning, J. W., and M. DeV. Cotten 1120
Effects of ouabain and calcium on potassium balance of isolated guinea pig ventricle. Kahn, J. B., Jr., E. Eakin, and D. E. Levi 1130
Effect of structural K, low K, and quinidine on QRS duration and ventricular action potential. Gelles, L. S., B. Sawavis and J. C. Shiu 1135
Unequal right and left ventricular ejection with ectopic beats. Levy, J. M., E. Mesel, and A. M. Rudolph 1141
Atrial and ventricular force of contraction influenced by intracoronal injections. West, J. W. ................................. 1145
Analysis of clearance of intra-arterially administered labels from skeletal muscle. Hyman, C., and J. Lenthall 1153
Comparison of rates at which albumin enters walls of small and large aortas Duncan, I. R., Jr., and K. Buck 1167
Anticoagulating activity of phosvitin on chicken blood in vitro. Sato, K., K. Honma, and J. Gotoh 1170
Analysis of clearance of intra-arterially administered labels from skeletal muscle. Hyman, C., and J. Lenthall 1173
Rate of disappearance of arginine vasopressin from circulating blood in the dog. Share, L. ................................. 1179
Circulating red cell volume in little brown bats in summer. Kallen, P. C., and W. A. Wimsatt 1182
Hematologic studies in the normal adult Indian camel (Camelus dromedarius). Banerjee, S., R. C. Bhattacharyya, and T. I. Singh 1185
Red cell life span in the turtle and toad. Alland, P. D., and K. C. Bruce 1188
Increased rubidium uptake by red cells during pregnancy. Iannone, J. M. .................................................. 1191
Aerobic metabolism in anaphylactic reaction in vitro. Chak- ravarty, N. .................................................. 1193

CORRIGENDUM

Volume 202, May 1962

Page 909: Nobuyuki Chuiyo and William C. Holland, "Na, K, Ca, and Cl exchange in guinea pig ileum." The unit of the ordinate of each figure in Figure 3 should read 10^6 c/m/Eq instead of 10^4 c/m/Eq.
