Effect of amino acid imbalance on rats maintained in a cold environment. Harper, A. E., and Q. R. Rogers

Factors affecting the weight of the crenster muscle. Stewart, D. M.

Dissociation of the acute recretions of thyrotropin and adrenocorticotropic. Ducommun, P., E. Sakiz, and R. Guilemin

Effect of body temperature on energy metabolism and heart rate of dogs after CNS destruction. Gulec, P. E., A. C. M. Paiva, C. A. E. De Magalhães, and F. A. Limões

Arterial and cerebral venous blood substrate concentrations during hyperthermia. Frankel, H. M., and S. M. Cain

Relation between toad bladder potassium content and permeability response to vasopressin. Finn, A. L., J. S. Handler, and J. Orloff

Roles of citric and ascorbic acids in enteric iron absorption in rats. Hopping, J. M., and W. S. Rudifson

Effect of histamine on electrolyte changes in solutions instilled in rat stomachs. Lindner, A. E.

Influences of hypoxemia and acidemia on left ventricular function. Tsunem, S. E., N. S. Talner, and T. H. Gardart

Analysis of cardiac pacemaker potential using a “voltage clamp” technique. Vassalle, M.

Hemodynamic cause of the pressor response to carotid occlusion. Olmsted, E., J. W. McCubbin, and I. H. Page

Cardiac and peripheral failure in hemorrhagic shock treated with massive transfusions. Roth, C. F.

Characteristics of resting tension of myocardium and localization of its elements. Grimm, A. F., and W. V. Whithams

Cardioaccelerator nerve stimulation and pronethalol on metabolism of noradrenaline. Harrison, D. C., and C. A. Chisdey

Exchanges of nucleotide phosphates in normal and in failing canine hearts. Fox, A. C., and G. E. Reel

Hemodynamic changes in endotoxin shock. Chien, S., C. Chang, R. J. Dellenbach, S. Usami, and M. I. Gregersen

Catecholamine-induced redistribution of blood flow in the unanesthetized rat. Goldman, H.

Role of the veins in the carotid sinus reflex. Browse, N. L., D. E. Donald, and J. T. Shepherd

Response of veins of canine limb to aortic and carotid chemoreceptor stimulation. Browse, N. L., and J. T. Shepherd

Effect of acute cardiac tamponade on the formation and evacuation of lymph. Wigriz, R., D. Patiezenskis, R. Entrep, M. Hughes, J. Sue, and R. Fallat

Comparison of effects of Fe++, Fe+++ and ferritin on intestinal circulation. Chow, C. C., and E. C. Texter, Jr.

Differentiation between pathogenic mechanisms of early and late phase of endotoxin shock. Hildebrand, G. J., J. Ng, Y. Seys, and S. H. Mudin
