CONTENTS OF VOLUME 217

SECTION PAGE

4, 8 Effect of secretin and cholecystokinin on gastric motility. Sugawara, K., J. Isaza, J. Curt, and E. R. Woodward .......................... 4

4, 8 Active transport of tertiary amine compounds into bile. Nyak, P. K., and L. S. Schanker .......................................................... 1

1, 11 Influence of vascular smooth muscle on contractile mechanics and elasticity of arteries. Dobrin, P. B., and A. A. 1

9, 11 Role of strum in closure of mitral valve in man. Zady, A., E. Steimutte, and H. Feigenbaum .......................................................... 1644

1, 3, 9 Cerebral and renal vascular smooth muscle responses to adenosine. Byapniki, J. P., and C. E. Rapola .......................... 1652

5, 9 Dynamics of stress relaxation in skeletal muscle. Little, R. C. ............................................................................................ 1665

1, 3, 5 Left atrial pressure, plasma osmolality, and ADH levels in the unanesthetized ewe. Zehr, J. E., J. A. Johnson, 1

1, 3, W. Moore ......................................................... 1968

1 Central nervous system modulation of baroreceptor reflexes. Hockerman, C. H., J. Tulasik, and K. E. Livingston 1

5 Circulating glucose, insulin, free fatty acids, and acetone bodies in rats given propanolol. Åkerblom, H. K., J. M. 1

3, 11 Martin, and H. E. Cingolani ..................................................... 1690

1, 5 Nutritional effects on blood flow in adipose tissue of unanesthetized rats. Mayerle, A. J., and R. J. Hazel 1

1, 3, 5 Interstitial cell granules and solutes in renal papilla in post-Goldblatt hypertension. Tobias, L., and M. Ishi 1

5, 9 Serotonin mediation of circadian periodicity of plasma 17-hydroxy corticosteroids. Krieger, D. T., and F. Rizzo 1

1, 3 Intrarenal blood flow and PAH extraction during angiotensin infusion. Carrière, S., and J. Friborg .......................... 1708

1, 11 Hemodynamic response to dopamine in experimental myocardial infarction. Wintrob, B. U., J. S. Schroeder, 1

M. Schroll, S. L. Robison, and D. C. Harrison .......................... 1716

1, 11 Electrolyte transport and volume measurements with rat intestine in vitro. McKenney, J. R., and M. F. Sullivan 1

1, 3, 11 Change in calcium dependence of isolated artieries after reserpine. Pargam, B. L., and O. Carrier, Jr .......................... 1736

1 Mechanism of systemic hemodynamic response during limb reactive hyperemia Zalis, R., and D. T. Mason .......................... 1749

1, 4 Intestinal absorption of digoxin–H3 in the rat. Caldwell, J. H., J. F. Martin, S. Dutta, and N. J. Greenberger 1

1, 8 Lacate and pyruvate kinetics in isolated perfused rat hearts. Henderson, A. H., R. J. Craig, R. Gorlin, and E. H. 1

Sonnenblick .................................................. 1742

5 A migrating electric complex of the canine small intestine. Scurzesinski, J. H. .......................................................... 1752

5, 8, 9 An effect of isoproterenol on rates of synthesis and secretion of testosterone. Eik-Nes, K. B. ............................................. 1757

4, 9 Gastric secretory and motor responses to anterior hypothalamic stimulation. Mason, G. R., and T. S. Nelson 1

1, 1 Fluid compartments of islet and other tissues of the toadfish Opsanus tau. Cooperstein, S. J., and A. Lasarow 1

1, 8 Uptake of glucose by islet of Langerhans and other tissues of the toadfish Opsanus tau. Cooperstein, S. J., and A. Lazaro- 1

row .......................................................... 1764

1 Location of synaptic connections in canine sympathetic cardiac innervation. Wachler, J. S., J. B. Paz, J. M. 1

Goldberg, and W. C. Randall .......................................................... 1784

1, 11 Effects of growth hormone and insulin on amino acid transport in perfused rat heart. Hyalmarson, Å. O. Isaksson, 1

K. Ahren .......................................................... 1789

1, 5, 11 Role of free fatty acids in stimulation of gluconeogenesis during fasting. Schimmel, R. J., and E. Knobil 1

1, 3, 8 Physiology of pump-perfused in situ dog kidney. Wolf, G. L., R. G. Dlubay, and D. P. Laufer .......................... 1803

1, 9, 11 Electrophysiological properties of Limulus heart and effect of drugs. Poma, I., R. C. Abbott, and F. Long .......................... 1809

4 Metabolism of exogenous histamine–14C during gastric secretion in dogs. Navert, H., E. V. Flock, G. M. Tyc, 1

and C. F. Cade .................................................. 1814

1 Vascular responses to stimulation of pulmonary and carotid baroreceptors by capsaicin. Brander, D., and M. M 1

Wahl-Peploe .................................................. 1830

5, 7 Effects of insulin on extracellular-intracellular amino acid pools in the cayman. Hernández, T., and R. A. Coulson 1

1837

CORRIGENDA

Volume 216, May 1969

Volume 216, June 1969

Volume 217, September 1969

Page 798: B. G. Zimmerman et al., “Transmitter release and vascular responses in skin and muscle of hypertensive dogs.” Page 801: the values of 9.1 and 12.9 cm2 for the areas of the vasoconstrictor responses in Table 3 were indicated previously as not being significantly different. These values differ significantly at the P < 0.05 level.
