CONTENTS OF VOLUME 217

SECTION
4, 8 Active transport of tertiary amine compounds into bile. Niyak, P. K., and L. S. Schanker ...................................................... 1639
1, 11 Influence of vascular smooth muscle on contractile mechanics and elasticity of arteries. Dobrin, P. B., and A. A. Rodeck .................. 1644
1, 8 Role of stratum in closure of mitral valve in man. Zaki, A., A. Steinmetz, and H. Feigenbaum ...................................................... 1652
1, 3, 9 Cerebral and renal vascular smooth muscle responses to adenosine. Byoski, J. P., and C. E. Rapela ........................... 1660
8, 11 Dynamics of stress relaxation in skeletal muscle. Little, R. C. ........................... 1665
1, 3, 5 Left atrial pressure, plasma osmolality, and ADH levels in the unanesthetized ewe. Zehr, J. E., J. A. Johnson, and W. W. Mooring 1672
5, 9, 11 Circulating glucose, insulin, free fatty acids, and acetone bodies in rats given propranolol. Akrehblom, H. K., J. M. Martin, and H. E. Cingolani 1690
1, 5 Nutritional effects on blood flow in adipose tissue of unanesthetized rats. Mayerle, A. J., and R. J. Hazel ........................... 1694
1, 3, 5, 9 Intestinal cell granules and solutes in renal papilla in post-Goldblatt hypertension. Tobin, L., and M. Ishii ........................... 1699
1, 3, 5, 9 Osmotic changes in plasma 17-hydroxy corticosteroids. Krieger, D. T., and F. Rizzo ........................... 1703
1, 3, 5 Intrarenal blood flow and PAH extraction during angiotensin infusion. Cartiere, S., and J. Friberg ........................... 1708
1, 11 Hemodynamic response to dopamine in experimental myocardial infarction. Winitroub, B. U., J. S. Schroder, M. Schroll, S. L. Robison, and D. C. Harrison ........................... 1716
3, 4, 5, 8, 9, 11 Gastric and intestinal effects of intravenous glucagon and epinephrine. Eik-Nes, K. B. ........................... 1764
1, 3, 11 Change in calcium dependence of isolated arterics after reserpine. Pecators, B. L., and O. Carrier, Jr. ........................... 1736
1 Mechanism of systemic hemodynamic response during limb reactive hyperemia. Zehls, R., and D. T. Mason ........................... 1749
1, 8 Lactate and pyruvate kinetics in isolated perfused rat hearts. Henderson, A. H., R. J. Craig, R. Gorlin, and E. H. Sonnenblick ........................... 1752
5 A migrating electric complex of the canine small intestine. Scorzanszski, J. H. ........................... 1757
4 Gastric and intestinal effects of intravenous glucagon and epinephrine. Eik-Nes, K. B. ........................... 1764
4, 9 Gastric-secretory and motor responses to anterior hypothalamic stimulation. Mason, G. R., and T. S. Nelson ........................... 1771
5 Fluid compartments of islet and other tissues of the toadfish Opsanus tau. Cooperstein, S. J., and A. Laszaro ........................... 1776
5 Uptake of glucose by islet of Langerhans and other tissues of the toadfish Opsanus tau. Cooperstein, S. J., and A. Laszaro ........................... 1784
1 Location of synaptic connections in canine sympathetic cardiac innervation. Wschaler, J. S., J. B. Pate, J. M. Goldberg, and W. C. Randall ........................... 1789
1, 5, 11 Effects of growth hormone and insulin on amino acid transport in perfused rat heart. Hyalmarn, A. O. Isaksson, and K. Ahren ........................... 1795
5 Role of free fatty acids in stimulation of gluconeogenesis during fasting. Schimmel, R. J., and E. Knobil ........................... 1803
1, 3, 8 Physiological properties of perfused canine kidney. Wolf, G. L., R. G. Dhabik, and D. P. Loutrel ........................... 1009
1, 9, 11 Electrophysiological properties of Limulus heart and effect of drugs. Pomsel, I., R. C. Abbott, and F. Long ........................... 1814
4 Metabolism of exogenous histamine-4C during gastric secretion in dogs. Navert, H., E. V. Flock, G. M. Tjoe, and C. F. Cods ........................... 1823
4, 5, 8 Depression of feed intake of goats by metabolites injected during meals. Bailes, C. A., and J. Mayer ........................... 1830
1 Vascular responses to stimulation of pulmonary and carotid baroreceptors by capsaicin. Bender, D., and M. M. Webb-Peploe ........................... 1837
5, 7 Effects of insulin on extracellular-intracellular amino acid pools in the cayman. Hensel, T., and R. A. Couulson ........................... 1046

CORRIGENDA

Volume 216, May 1969

Volume 216, June 1969

Volume 217, September 1969
Page 798: B. G. Zimmerman et al., “Transmitter release and vascular responses in skin and muscle of hypertensive dogs.” Page 801: the values of 9.1 and 12.9 cm² for the areas of the vasoconstrictor responses in Table 3 were indicated previously as not being significantly different. These values differ significantly at the P < 0.05 level.
